Conclusions

# Purpose of the workshop

1. Get an insight of the case methodology
2. Be exposed to challenges and opportunities with the methodology
3. Practically adapt the teaching method to talented learners
4. Start to think about actual content / activities that reinforce the case

# Activities for the day

- 13:00-13:30 - Grouping. Start planning your **theme** and build your mind map
- 13:30-14:00 - Plan the **content** that will be included in your case
- **14:00-14:15 - FIKA**
- 14:15-14:45 - Decide upon a common **examination**
- 14:45-15:15 - Present your plan for the case period

# Step 1: Theme / story / dilemma (30 min)

- What should the **theme / story / dilemma** be? Suggestion, build upon the King Leopold Case
- State what **subjects** should be included in the case period
- Discuss the challenges and possibilities with this theme
- Start to build your mind map

## Step 2: Content (30 min)

- What components / building blocks need to be included to the case period: think about the **start**, the **middle** and then **ending**
- How will the **case seminar** be incorporated?

## Step 3: Examination (30 min)

- What type of **examination** will you use? Why?
- The examination should incorporate all of the **subjects** involved.

## Step 4: Present your mind map (30 min)

- Present your mind map and inform us of how you have thought of helping talented learners during the case period
